## experience

- |           |  |               |
|-----------|--|---------------|
| 2022      | <b>Tail</b><br>minimal, easy-setup, Jekyll blog theme  | Demo          |
| 2022      | <b>autoCV</b><br>auto deploying $\LaTeX$ template  | Demo          |
| 2020      | <b>Gradfolio Theme</b><br>Responsive, dark-mode ready Jekyll theme made for academia, open source  | Demo          |
| 2019      | <b>fuck! phasefield</b><br>Showcase of phase-field simulations   | Website       |
| 2018      | <b>metalschool.org</b><br>GitHub hosted, rendered from Markdown using Jekyll   | Website       |
| 2013 - 15 | <b>NIFFT bakLOL</b><br>Technically a Webcomic, but more like my attempt to write funny stuff along with a few batchmates   | Facebook Page |
| 2013 - 14 | <b>Facebook Promotion Campaign, Newsletters</b><br>Contests, Online Events and Promotion for NIFFT's techno-cultural fests. Started an alumni newsletter   |               |
| 2011 - 14 | <b>Various websites for NIFFT Clubs/Activities</b><br>These were a set of websites I made while learning HTML, CSS, JavaScript. These also introduced me to the back-end side of things, CMS and tools used for web development used at the time |               |

## skillset

Code : MATLAB, Python,  $\LaTeX$ , R, C++, HTML, CSS, JavaScript
